Winter Academy on International Arbitration

“ACROSS THE ARBITRATION UNIVERSE: DIFFERENT PERSPECTIVES ON DISPUTE RESOLUTION IN THE MODERN WORLD”

16–27 January 2023 | Online | [Register here](#)

We are glad to announce the third Winter Academy on International Arbitration.

Building a program of the Winter Academy, we try to balance practical classes with general fundamental courses on arbitration. The Winter Academy 2023 is dedicated to the core concepts of arbitration, its interplay with state courts and other methods of dispute resolution, as well as the special features of arbitration across the globe.

Each year, preparing the Winter Academy, our team itself is eagerly looking forward to meeting both lecturers and participants. The Academy connects people from different countries with various cultural background. At the end of the day, that is perhaps the most essential goal of the Winter Academy – to focus on common values, which the international arbitration cherishes and maintains.

The participation in the Winter Academy 2023 is **free of charge**.
